
Mount Baldy Hill Climb

Posted by SANDTALKER - 2007/05/09 01:17

Is anyone coming to the Mt. Baldy Hill Climb at Silver Lake Dunes in May. In case everyone doesn't know about it, it is May 13th at Silver Lake Dunes. It is open to Dune buggies, 4x4 trucks, quads and I have even seen dragsters climbing Mt. Baldy. On the 12th at West Michigan Dragway is registration and tech in, also there is a swapmeet and gamblers race. The hill climb is a real good time, some of these guy's are real serious about it. Hope to see you all there.

I think I'll probably be there. Hopefully it doesn't rain this time! Seems like it always does...

Hello,

How was the Mount Baldy Hill Climb? Were there alot of people there? Wish I could have made it.

What kind of buggies were there?

Andy did you get a chance to make it there?

Andy I will call you soon to come by your shop or try to meet you at the dunes, to talk about a new buggy.

Talk to you guys later,

Brian

Hey Andy, if you have photos, hook them up.

One of these days I want to head up there with you to show you how to really drive those toys of yours! HAHA.

I was not impressed this time. There were neither turbo cars, nor fuel cars. All of the cars that I took awesome video of in the fall of last year, were absent this year.

There was a "monster truck" that attempted the hill, but only made it about 2/3 of the way. I took video of that. It was the only thing I took video of. I left during the intermission. I'll post the MOV (What my camera takes) video of that as soon as I get done wrapping up a few things.

With any luck, I will have a new speed controller for my remote control monster truck for the fall climb. MY monster truck will actually make the hill, haha.

I also still have some awesome video of last year's race. If I am allowed to post HTML, (?) I can embed it into these forums. (SandTalk, that question was for you.)

Otherwise, I can just link it. (Already hosted.)

I missed it! We've been so freakin' busy lately I haven't been up much.

Brian you can call me anytime.

Tom, I'll get some pictures and videos up soon.

Not bad. What ever happened to that "copperish" colored Jeep w/ the 8 into 1 exhaust?

I think I know what one you're talking about, and he didn't run that time.

The last time I did see him, he wheeled all the way up the hill. Probably scared himself. I wish I would have gotten video of that pass.

Cool. I have to get up this soon...

There where some funny videos on that site...

NOTE: for uploading the MOV, when you create a new message or reply, or post anything for that matter, there are 2 boxes below your post message box. One is for images, the other is for video. It's labeled "File", but it will take a MOV.

let me know if you have any problems.

Tom.

I noticed that. I'll tell you exactly what I did.

I located the file I was looking for using the browse button to the right of that box. I then clicked the button and it put exactly that into the post. ""

When I posted, it took a long time to post. I assumed that it was uploading the video, which it seemed to be doing. When the post was finally made, the video was not there. I will do a little checking to find out why. I can't rule out user error quite yet. :)
